

# Walbro New Release E85 High Performance In Tank Fuel Pump

Model No. F90000267

## Product Highlights

- Outperforms all current market in-tank fuel pumps
- Designed for engines with more than 500 HP
- Award-winning OE technology
- High-pressure, high-flow performance
- OEM technology designed and developed for E85. All pumping components have been validated to OEM specifications for approved use in E85/flex fuel applications.

*Requires modifications to wiring, fuel lines and fuel module  
- Professional installation recommended*

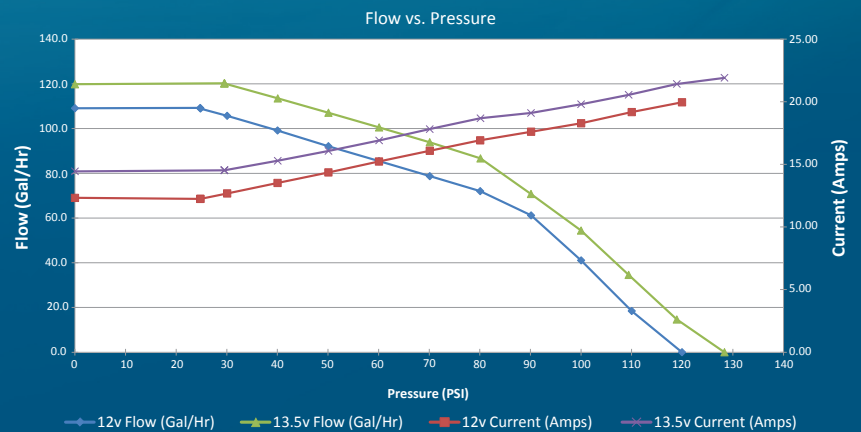

### 12.0 Volts

Pressure (PSI)	Averages		
	12v (L/Hr)	12v Flow (Gal/Hr)	12v Current (Amps)
0	413	109.1	12.32
25	413	109.2	12.24
25	412	109.0	12.25
30	400	105.7	12.68
40	375	99.2	13.52
50	349	92.1	14.36
60	323	85.4	15.23
70	298	78.7	16.09
80	273	72.0	16.92
90	232	61.2	17.61
100	155	41.1	18.28
110	70	18.4	19.18
120	0	0.0	19.96

### 13.5 Volts

Pressure (PSI)	Averages		
	13.5v (L/Hr)	13.5v Flow (Gal/Hr)	13.5v Current (Amps)
0	454	119.8	14.45
30	455	120.2	14.53
30	455	120.3	14.55
30	455	120.2	14.53
40	430	113.5	15.29
50	405	107.1	16.07
60	381	100.5	16.91
70	355	93.9	17.82
80	328	86.7	18.68
90	268	70.8	19.10
100	206	54.4	19.80
109	131	34.6	20.55
119	55	14.7	21.42
128	0	0.0	21.91
